

MOONCAKE LUXURY COLLECTION 2022

ATHENEE SIGNATURE BOX

Our presentation is designed by young, talented contest winner and fashion designer Naphon Kijrungrroj. The peony symbolizes wealth and prosperity in Chinese tradition, and is considered one of the most beautiful flowers in China. Historically, peonies were grown and enjoyed by Chinese emperors and other important figures in society. Gold and red colors represent wealth, happiness and good fortune, making the mooncakes an auspicious gift at this time of year.

MOONCAKE LUXURY COLLECTION 2022

BOUQUET PER VITTORIA

This gorgeous floral painting is the third in a series that artist Arianna Caroli has created as an Artbox for The Athenee Hotel, a Luxury Collection Hotel, Bangkok. Bouquet per Vittoria is inspired by Arianna's grandmother Vittoria. Warm, pink blooms infuse the bouquet with positive energy, while the red colors represent love, wealth, and richness of spirit and soul.

Arianna's paintings combine eastern mysticism with western expressive power, and she lives surrounded by art and beauty. We are very proud of our collaboration, and feel that Arianna's work represents the tradition of Princess Valaya Alongkorn, daughter of King Rama V of Thailand, who resided at Kandhavas Palace, which stood on the grounds where The Athenee Hotel stands today.
