ROYAL ROOTS AND INFLUENCES

Underpinning The Athenee Hotel, a Luxury Collection Hotel Bangkok's original cache is the fact that it is built on the site of Kandhavas, the palace of Princess Valaya Alongkorn, daughter of King Rama V. Motifs directly drawn from that palace are honored in the recent redesign of the hotel completed in 2015. Royal Thai elements from other reigns and epochs also conspire to create intriguing aesthetic impressions of the kingdom.

Moreover, independent experts concur: the extensive remodeling project won the designers the prestigious Five Star Asia Pacific Property Award 2015-2016 in the category of "Best Hotel Interior Thailand".

Other defining characteristics of the hotel include its distinction of being the first in the world to achieve ISO 20121 certification for planning and delivering sustainable events. Indeed, the hotel's environment-friendly emphasis is not only reflected in its sustainable meeting practices but in its overall energy conservation ethic.
